Vinod Cookware, one of the leading Kitchenware brands in India introduces the newest addition ‘Magic Cooker range’ that comes with the addition of new features that lets you stay in control in the kitchen.

Vinod Magic Cookware is versatile when it comes to usage of lids. Cook using the necessary pressure cooker lid, filter water through the sieve plate on the strainer lid, and then serve the delicious food in the same container by just switching the lid with the serving lid. So, now there is no need to map the food from one to other when you can conveniently do ‘all in one’.

Being a high-quality Sandwich bottom cookware, this Cooker not just prevents food from sticking to the bottom surface but also it’s ideal for cooking on both gas stove and induction stove. This hygienic, superior surgical 18/8 grade stainless steel cooker stays bright and shines without being corroded. On the other hand, the sandwich bottom is a heavy gauge thermal base for uniform heat-distribution, and heat retention.

Additionally, the most innovative addition to its features is the Duralife Gasket which is specially manufactured solely of silicon and robust compounds, to increase the life of the gasket. The best part, though being a synthetic and non-metallic component in the entire cookware, its color does not fade or drip, neither does it add color, taste or odor to your cooked food.

“Acknowledging the diverse Indian cooking style, Magic Cooker is a perfect companion. It’s fast and energy saving efficient cooking is a point which makes it stand above of any other cookware. We are a proud and happy family of cookware manufacturers to understand the needs of Indian Kitchens, and curtailing the hassles faced,” says Director - Vinod Cookware, Mr. Sunil Agarwal.

Magic Cooker is now available in your nearest stores with the benevolence of 24 months warranty.
